ABOUT US

Cherry Stone Mining Services is a division of Cherry Stone Holdings (Pty) Ltd, providing mining support services, plant hire and mining supply to mining, petroleum and energy operations. Cherry Stone Holdings is a 100% Black Youth Woman Owned Company established in 2016.

Our work sits where material moves. Front end loader work and feeding the crusher, managing stockpiles and loading side tippers, handling and compacting discard, loading and hauling from the pit to the offloading area, and rehabilitation once mining is done.

Alongside the services, we hire out earthmoving and material handling plant with operators, and supply the pumps, valves, fasteners, bearings, seals and steel that keep a plant running between shutdowns.

100% Black Youth Woman Owned

Established 2016

MINING SERVICES

Stockpile and discard management, loading and hauling, rehabilitation

PLANT HIRE

Excavators, front end loaders, tipper trucks and TLBs, with operators

MINING SUPPLY

Pumps, valves, fasteners, bearings, seals, steel pipes and fabrication

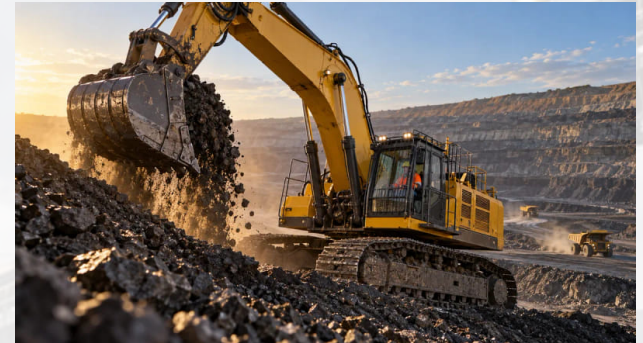

INDUSTRIAL SUPPLY

Electrical, Castrol lubricants, mechanical and conveyor components

WHAT WE DO

Operational support across the mining value chain, with the plant and the parts to back it up.

- **Stockpile management:** FEL loading, feeding the crusher, managing stockpiles, loading side tippers
- **Discard management:** handling, relocating and compacting material waste
- **Loading and hauling:** material from the pit to the offloading area on the mine
- **Rehabilitation:** earthmoving and material handling to restore worked areas
- **Plant hire:** excavators, front end loaders, tipper trucks and TLBs, with operators
- **Pumps and pump repairs** for dewatering, slurry transfer and water reticulation
- **Valves and valve repairs** for isolation, control and pressure relief duties
- **Nuts, bolts and fasteners** in a full range of sizes, grades and finishes
- **Bearings and mechanical seals** for pumps, gearboxes, conveyors and motors
- **Steel pipes and fabrication** for pipelines, structural steel and bespoke work

FROM PIT TO STOCKPILE

MINING SERVICES

Material handling and site support for mining, petroleum and energy operations, run by operators who know the duty.

Stockpile Management Services

Front End Loader (FEL) loading, feeding the crusher, managing stockpiles and loading side tippers.

Discard Management Services

Handling, relocating and compacting material waste to keep operations compliant and productive.

Loading and Hauling Services

Reliable loading and hauling of material from the mine pit to the offloading area on the mine.

Rehabilitation Services

Earthmoving and material handling to reshape, cover and restore worked areas.

REQUEST A QUOTE

cherrystoneholdings@gmail.com · +27 79 348 9278

Every request receives a reference number for tracking.

PLANT AND OPERATORS

PLANT HIRE

Earthmoving and material handling plant hired with operators and mobilised to your mining or industrial site. Tell us the equipment, the site and the duration, and we will confirm availability.

Excavators

For bulk earthmoving, loading and material handling on site.

Front-End Loaders

Stockpile loading, material movement and yard operations.

Tipper Trucks

Material haulage between sites, stockpiles and sidings.

TLBs

Versatile digging, loading and general site support tasks.

WHY CHERRY STONE

ONE PARTNER FOR SITE AND STORE

Services, plant and parts from a single accountable supplier, with a direct line to the people who quote and deliver.

100% BLACK YOUTH WOMAN OWNED

Established in 2016.
Partnering with Cherry Stone
supports transformation in
your supply chain.

ONE PARTNER, TWO DIVISIONS

Mining services and plant hire
alongside electrical,
lubrication, mechanical and
conveyor supply. Fewer
suppliers to manage.

RESPONSIVE SERVICE

Direct line to the people who
quote and deliver. Fast
responses and urgent supply
when operations cannot wait.

MAINTENANCE READY

Pumps, valves, bearings, seals
and fasteners sourced and
repaired to keep plant running
between shutdowns.

HOW WE WORK

FROM REQUEST TO SITE

01

Send us the scope

Request a quote for mining services, plant hire or supply. Tell us the site, the scope and the timing.

02

Get a reference number

Every request is logged and given a reference, so it can be tracked from first enquiry to award.

03

We quote and confirm

The team prices the work, confirms availability and mobilisation for your site, and comes back to you.

04

Delivery and support

Plant and people on site, or parts delivered, with one point of contact for the duration.

URGENT AND EMERGENCY SUPPLY

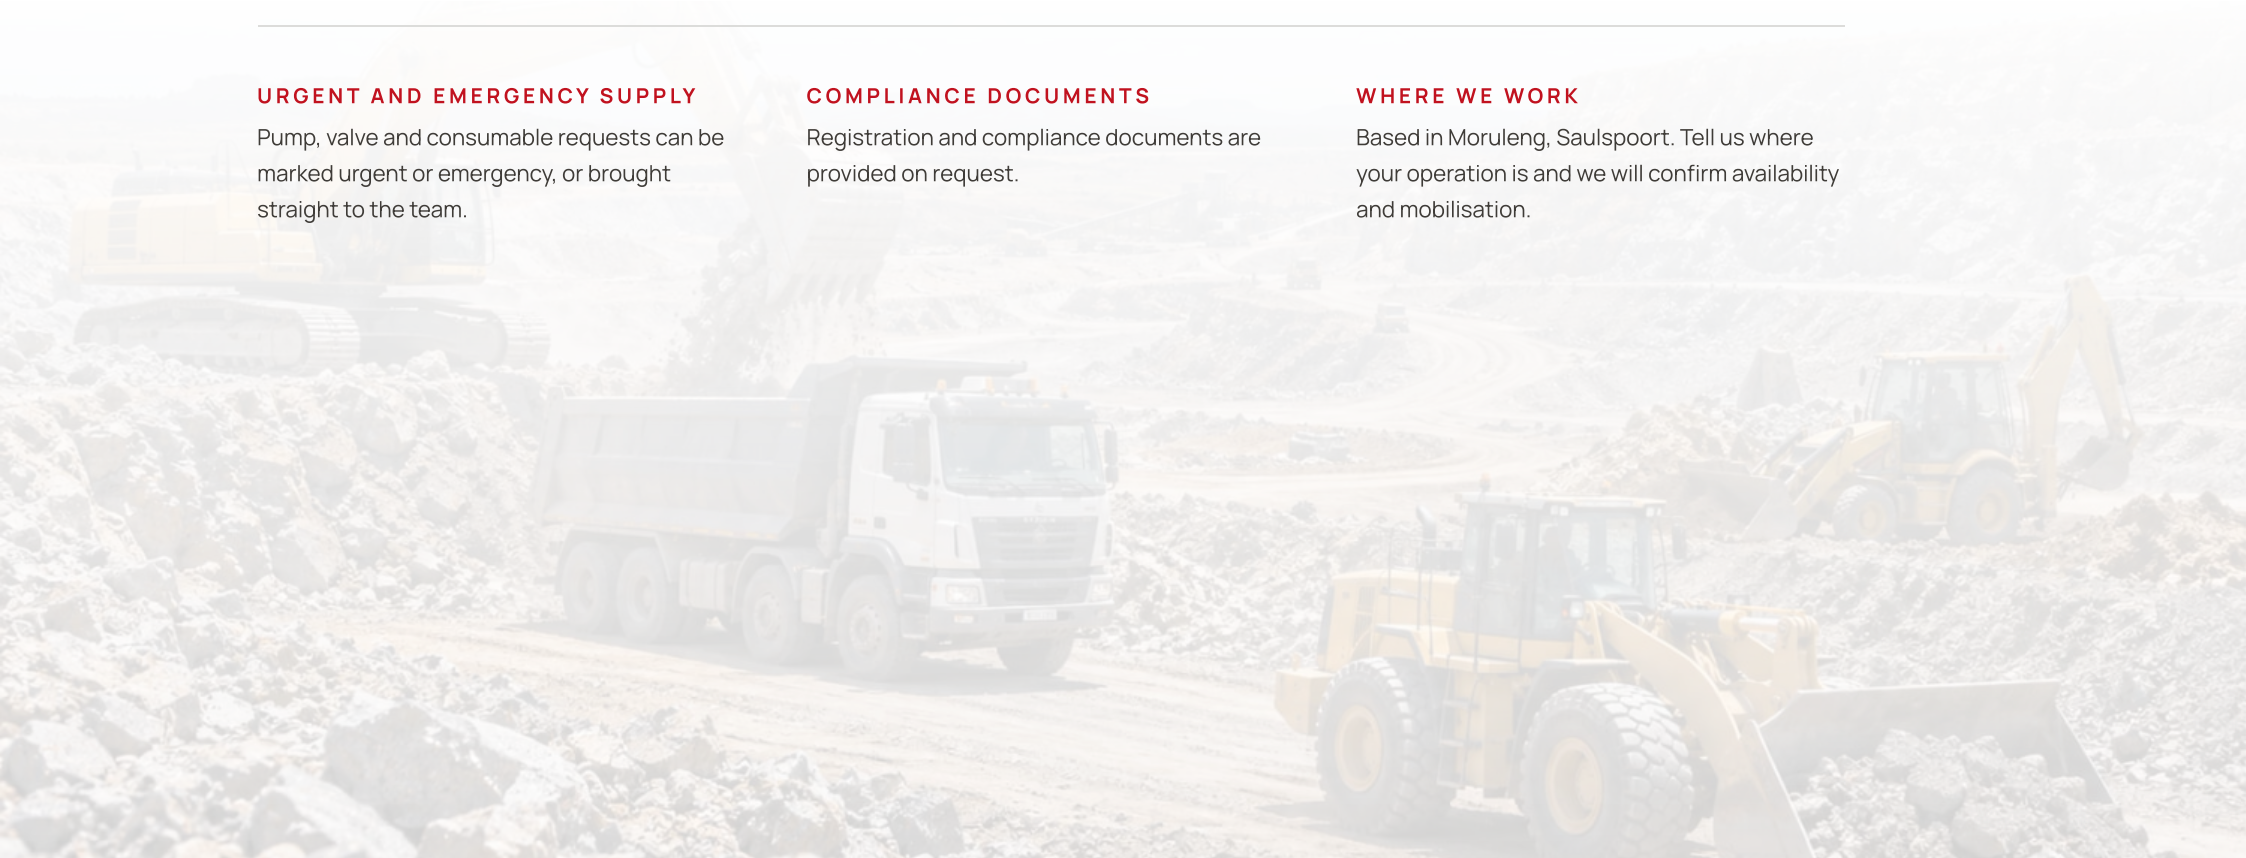

Pump, valve and consumable requests can be marked urgent or emergency, or brought straight to the team.

COMPLIANCE DOCUMENTS

Registration and compliance documents are provided on request.

WHERE WE WORK

Based in Moruleng, Saulspoort. Tell us where your operation is and we will confirm availability and mobilisation.

GET IN TOUCH

Tell us what the job needs and we will quote it. Mining services, plant hire and mining supply, with a reference number on every request.
